- Equipment/Supplies
- Resources for Orchestra Instruction
- Leadership Training
- Subsidized Local Field Trip (i.e., Atlanta Symphony)
- New! Harrison Orchestra Mask and Shirt
- School Fees to Participate in GMEA Events
- Concert Programs

We offer a unique program at Harrison with enrichment opportunities that we are able to provide to our students from the support of the Harrison Orchestra Boosters (HOB). The orchestra has a rich tradition of bringing in professional clinicians to teach masterclasses on a regular basis to provide more individualized instruction to each of our string sections. The amount of money that the orchestra receives from the county each year makes up about 10% of the operating budget for the year. Therefore, in order to provide enrichment experiences for students to achieve excellence at such high levels, the HOB supplements what the county is able to provide. All students in orchestra pay a curriculum enrichment fee of \$150 \$75 for this Fall semester and \$150 for the Spring semester. This fee ensures that we are able to continue providing the highest quality orchestra class curricular program for your students. The HOB board has voted to reduce usual expenses through our “rainy day” fund to help families during this unique time. If a family has financial difficulty with the enrichment fee for their student, please contact Mr. Mori to discuss options. It is the mission of the Harrison Orchestra Boosters to provide and support the orchestra program to receive the highest quality of musical enrichment and experiences and our goal is to support the vision of Helping Orchestra Youth Achieve Success.
